ABSTRACT

This article analyzes the social features of the transformation of the family institution on the example of Uzbekistan. In order to solve and prevent family problems, a psychological service is offered, and models of psychological assistance are recommended as necessary factors for strengthening families. For psychological assistance, the need for explanatory work, psychological counseling and appropriate recommendations are substantiated.

KEYWORDS: *Family, Types Of Family Transformation, Psychological Assistance To The Family. Psychological Service To The Family, Models Of Psychological Assistance, Psychological Counseling, Psychological Factors, Recommendations.*
