ABSTRACT

The development of transport communications and the improvement of their use is one of the most pressing tasks in the development of the economy. In fact, the share of domestic goods in the transport of goods in the country is the share of roads shows that roads are one of the key factors in the development of the economy of the republic. The use of lanes determines certain modes and procedures for the movement of vehicles and pedestrians. Road lanes are a means of visual guidance for drivers and play an important role in increasing the speed and through put of vehicles and ensuring road safety.

KEYWORDS: *Economic Development, Transport Communications, State Road Policy, Highways, Highway Users, Road Lines, Alkyd Or Acrylic Paints, Thermoplastics.*
