ABSTRACT

Independence has opened a wide way to study the centuries-old rich historical, scientific, cultural and religious heritage of the Uzbek people and use it as a common and invaluable property of the people. It is a priceless treasure of spiritual wealth, values, state, nation, individual and a source of development. The science of history has a special role in the development of this spiritual and ideological foundation. As the First President of the Republic of Uzbekistan Islam Karimov said: The verse plays an important role¹.
