**ABSTRACT**

*Due to the increase in production volumes in the metallurgical and metalworking industries, the need for personal protective equipment for metallurgical workers has significantly increased. The development of special clothing is dealt with by the Central Scientific Research Institute of the Garment Industry, but scientific developments and experience were in limited demand. one state-owned enterprise that would be engaged in research and development of the creation of clothes.*

**KEYWORDS:** *Working Conditions, Combustion Processes, Thermal Destruction Processes, and Metalworking Industries, Flame Retardant.*
