ABSTRACT

This article describes the analysis and research within the frame work of the main tasks of the state. It covers in detail, on the basis of reliable our ces an danin-depthanalytical approach, the issues that the state is the main protector of the cultures, values and traditions of the peoples of this state and the main guarantee of their survival. It is true that the information in those writings may seem unnatural from today's point of view. A style of government formed on the basis of some kind of violence may have appeared in the epics in the form of an institution alienated from the people. But no matter what is done, no matter what is done, it is known that the ancient kingdoms, the rulers, were formed on the basis of the principle of hope, solidarity.
