ABSTRACT

Bilateral actions in the learning process (learning and teaching) are comprehensive for personal development. Education is the most important and reliable way to acquire systematic knowledge. Education is characterized by two-way communication (learning and teaching), comprehensive personal development and other features. Education also has its own characteristics. Education is about the process of communication between students and students, the organization of modern education, the formation of knowledge, skills, abilities and the introduction of new technologies, interactive methods in education.

KEYWORDS: *Education, Knowledge Of The Process, Task, Person, Teacher Education, The Study Of Modern Theoretical Knowledge, Skills, Talent, Technology, Interactive Teaching Methods, Methods, Small Group, Team, Master*
