ABSTRACT

The introduction of new information and communication technologies in the printing industry has opened up a wide range of opportunities. This article discusses the basics of making multi-page publications, the computer programs used, and a brief history of them. The recent history of graphic design has developed rapidly in the process of technical development from the 1800s to the XIX century, and was used mainly for artistic purposes.

KEYWORDS: *Design, Decoration, World Standards, Printed Matter, Printing, Industry, Computer Manuals, Publishing, Graphic Design.*
