ABSTRACT

This article examines some of the lexemes related to the ancient Turkic culture which are preserved in the Altaic language. The etymology, content and essence of words related to the human psyche, identified on the basis of research by leading orientalists and linguists such as L.P.Potapov, V. I. Verbitskiy, Anoxin, N.A. Baskakov, are compared with the same words in the Kipchak dialect of the Uzbek language.
