ABSTRACT

The article illustrates about Communicative Language Teaching and some effective ways of CLT. Moreover, the usage of fairy tales and effects of them in CLT are given in the article. Communicative language teaching (CLT) or the communicative approach is an approach to language teaching that emphasizes interaction as both the means and the ultimate goal of study. Language learners in environments utilizing CLT (Communicative language teaching) techniques, learn and practice the target language through the interaction with one another and the instructor, the study of "authentic texts" (those written in the target language for purposes other than language learning), and through the use of the language both in class and outside of class. Learners converse about personal experiences with partners, and instructors teach topics outside of the realm of traditional grammar, in order to promote language skills in all types of situations.

KEYWORDS: *Communicative language, authentic texts, characteristics of CLT, interaction and communication, method, approach.*
