METHODS OF USING INFORMATION AND ADVANCED PEDAGOGICAL TECHNOLOGIES IN PRIMARY EDUCATION

Khadicha Jabborovna Sattorova*

*Associate Professor,
 Tashkent State Pedagogical University named after Nizami,
 UZBEKISTAN

ABSTRACT

Today, the teacher has a responsibility to bring up a harmoniously developed generation, to set tasks aimed at improving the content of education, to keep pace with the times, to introduce modern educational technologies in primary education. Achieving positive results in education is determined, first of all, by the effective organization of educational work on the thorough teaching of the basics of scientific knowledge to the younger generation, the expansion of their worldview and thinking, the formation of spiritual and moral qualities. In this regard, many changes are being made in the educational process, new approaches are being introduced. One of them is to use information and communication technologies to increase the effectiveness of teaching in primary education.
