ABSTRACT

In this article, the author analyzes William Golding's creative works in which he draws attention to Human Nature. Golding was a contemporary English writer of the 20th century, who through his literary works tried to express his thoughts and ideas that were clearly acknowledged by critics as philosophical,. He wrote a lot of significant works, particularly novels, which contain extravagant philosophical concerns about human's true essence. The purpose of the article is to analyze Golding's literary works which highlight philosophical problems such as human nature, evil essence, existence, and the meaning of the life. In the article, the author presents several famous novels written by Golding, and shows his philosophical inclination by thoroughly analyzing them.
