ABSTRACT

In linguistics, research is being conducted in priority areas, such as the coverage of aspects of the category of exclamation, the analysis of their national and cultural characteristics. The article deals with the expression of requestive type of the exclamation category. Lexical, grammatical means serve as formal means of expression of exclamation. In standpoints of reflecting national culture, similarities and differences can be seen in the exclamation category. Their differences are reflected in the influence of the national culture. When using sentences, phrases in communication, it is important to pay attention to the semantical structure of the sentences. They are directed towards the intended goal and play an important role in the speaker's achievement of a positive or negative outcome in the communication process.

KEYWORDS: *Exclamation Category, Request, Proposal, Modality, Replica, Linguoculture.*
