ABSTRACT

This article is devoted to linguo culturological problems have appeared in modern linguistics. Linguo culturology is a complex field of scientific knowledge on the interconnection and interaction of language and culture. Linguoculturology is designed to identify, with the help and on the basis of linguistic data, the basic oppositions of culture fixed in the language and manifested in discourse. Reflected in the mirror of the language and in it are fixed ideas about cultured areas: spatial, temporal, activity, etc

KEYWORDS: *Linguoculturology, Brunch, Linguistics, Structure, Discipline, Material, Goal, Culture, Language.*
