ABSTRACT

This article deals with the relations between Sanskrit and Uzbek. Additionally, the opinions of linguists and scholars on this topic, the information on the quantity and quality of Sanskrit assimilations cited in their scientific work are deeply analyzed. Our opinion can be supported by the following conclusion of the great Uzbek linguist E. Begmatov: "The relationship of the Uzbek language with foreign languages has different levels and qualitative aspects."

KEYWORDS: *Sanskrit, Uzbek, Sanskrit Assimilations, Uzbek And Sanskrit Relations, Written Sources, Quantitative And Qualitative Analysis.*
