ABSTRACT

This article provides detailed information on several problems of tourism development in Uzbekistan and measures to address them, the development of national and international tourism in our country. Today, the tourism industry is becoming one of the highest service systems in the world. Its social sphere is distinguished from other spheres by the fact that there are conditions for improvement in all countries, which are present in different stages of development. In addition, moral, administrative and social shortcomings for visitors, visa procedures, the high level of country control over licensing and certification in dealing with tourism are among these problems.
