ABSTRACT

This article analyzes the processes of using land and water resources and the impact of the natural environment on the economic system of the population of the Khiva Khanate. The article highlights that the natural conditions of the Amu Darya delta are the basis for the formation of agricultural, livestock and fish farming, favorable climatic conditions, water and cultivated soils contributed to the development of agriculture.

KEYWORDS: *Khiva, Khanate, Nature, Historical Works, Flood, Canal, Agriculture, Gardening.*
