 Kumbi College, Manipur, INDIA

ABSTRACT

Various developmental programmes have been taken up by government with a vision for rural development. Despite planned efforts for rural development expected target seems to be very far in one sense. The problems of poverty, illiteracy, erosion, environmental degradation, pollution, unemployment, hunger, starvation, death, mass migration, inequality, etc. prevail in rural India, in the context of India's effort for rural development.

KEYWORDS: *Starvation, Death, Mass Migration, Inequality*
