ABSTRACT

This article about the function of a language is not only transferring messages, but first and foremost is the transmission of what we report. There is a «space of meanings» fixed in the language knowledge about the world, about the national characteristics of a particular community speaking this language. Language picture of the world is formed as the set of knowledge about the world, reflected in vocabulary, grammar, phraseology.

KEYWORDS: *National Character and Culture, Analysis Of Essence, Content And Structure, Language Awareness Product*
