### ABSTRACT

*Language and literature play a key role in personality formation a person, his life in society, everyday communication and professional activity. An important stage in the development of language and literature is stage of general education. The purpose of the concept of teaching Russian language and literature in educational institutions of the Russian Federation – designate problems existing in the teaching of these subjects in schools of different types, outline possible ways to solve them and determine conditions conducive to the development of language and literary education school children. Together with legally approved Federal State Educational Standards (FSES) and Exemplary Basic Education Programs (VET) concept forms the basis of philological education at school.*

**KEYWORDS:** *Designate, Federation, Determine*
