ABSTRACT

This article is dealt information about the research institutions of Great Britain, studying with close attention the history of Central Asia, in particular Uzbekistan, also socio-political processes, state policy, religion, youth, ethnographic situation, social reforms and other spheres of the country. Along with this, there is provided information on the history of the emergence of such organizations. Furthermore, there is given information about universities, institutes, societies, centres, as well as their specialists. At the same time, there is discussed the completed projects of British orientalists and specialists, also research works that are being carried out at the moment. Research institutions have been studied, their activities have been objectively assessed.

KEYWORDS: *Central Asia, Oriental Studies, The Islamic World, Politics, Society.*
