ABSTRACT

This article is about generic competence development in teaching English. It is designed to find out the specific generic skills that should be emphasized by the English language teacher and to find out what methods/strategies that can be used by foreign language teachers to foster generic skills in language lessons. In this article I want to determine the methods and strategies of generic skills that can be used by language teachers.

KEYWORDS: *Generic, Competence, Collaborative, Communicative, Technique, Activity, Problem- Solving, Method.*
