ABSTRACT

This article discusses the professional competence of educators in preschool education, which is the primary link in the education system, and the process of their implementation. The etiquette of the educator is the basis for the formation of correct behavior in students, because it can be a living example for students with their manners. The professional activity of future educators is complex and multifaceted. Prospective educators face different pedagogical situations during their careers.

KEYWORDS: *Education System, Reform, Competence, Professional Standard, Aesthetic Education, Activity, Ability.*
