ABSTRACT

This article reveals the advantages of using the role-plays as the most effective techniques in learning foreign languages. Learning English may seem quite boring and uninteresting occupation, if this process is monotonous, involves one type of activity and does not motivate the student still with interest to learn English. The task of the teacher is thus to present the learning process of the student for learning English, an attempt to talk. The aim of teaching foreign language at all levels of education of the Republic of Uzbekistan is to develop the FL communicative competence of learners to be able to function in the multicultural world in everyday, academic and professional spheres.
