ABSTRACT

This article discusses the current state of the study of the lingua didactic basis for preparing Russian proverbs and sayings in practical Russian. In the system of school education, it was the Russian language that played the primary role, since thanks to the development of the language by students, we carry out the study of other subjects, and the cognitive abilities of students develop.

KEYWORDS: *Knowledge, Lingua-Didactic Russian As A Foreign Language, Communication, Practical Russian Language, Interactive Teaching Methods.*
