ABSTRACT

The article discusses ways to enrich the phraseological composition of the modern Russian language in new socio-cultural conditions. The structural and semantic features of stable turns that have appeared in the language of the Internet are noted. The common features characteristic of phraseological neoplasms in the language of subcultures is revealed.

KEYWORDS: *Phraseological Units, The Language Of The Internet, The Language Of Subcultures, Anglo-Americanisms, Phraseological Units With Numerals, Acronyms And Composite Words In Its Composition.*
