ABSTRACT

Image is an important aesthetic category that maintains the integrity and integrity of the work of art, and its behavior and activities allow for the full expression of the ideological concept that the artist wants to express. That is why a real artist tries to perfectly reveal all aspects of the image he is creating. The phenomenon of artistic synthesis at the image level is such an opportunity. In his poems and narrations, Navoi glorified our Prophet, who was sent to perfect the most beautiful morals and morals. Navoi incorporated some of the qualities of our Prophet into the image of Farhod. The article proves with concrete examples that the events related to our Prophet were transferred to Farhod in the epic "Farhod and Shirin".
