ABSTRACT

Despite the fact that the concept of "competence" is becoming more and more popular, there is still no generally accepted definition of it. The term "competence", according to Webster's dictionary, appeared in 1596, but only in the last 15 years the influence of this concept on management and education began to increase.

KEYWORDS: *Competence, Entrepreneurship, Metasubjectivity, Hierarchy, Core Competencies, General Competencies, Competencies Of Academic Disciplines, Racism, Xenophobia, Intolerance, Integrality, Multifunctionality.*
