### ABSTRACT

*The article makes an attempt to generalize the factors and trends in the functioning and development of the world economic system and the world economic ties that unite it in the conditions of slowing down the pace of globalization and the growing dependence of trade and investment ties on geopolitical processes. The general context of the development of the world economy is considered - based on the analysis of key macroeconomic indicators of national development and interstate relations.*

**KEYWORDS:** *Development of the World, Modern World Economy, National Economies, Economic Life, Information Technologies.*
