### ABSTRACT

*This article is devoted to the formation of the resource base of private banks operating in the Republic of Uzbekistan. The data are taken from the analysis of financial statements on the banking system issued by the Central Bank of the Republic of Uzbekistan. It covers the activities of 6 existing private banks in the Republic of Uzbekistan. In addition, a conclusion was drawn on the elimination of abstract problems in the formation of the resource base of private banks. The ultimate goal of radical reforms in the banking and financial system of the country is to strengthen the resource base of banks, increase the level of bank capitalization, increase the confidence of businesses and the public in the banking system. Summing up our econometrically formed model, it should be noted that taking into account other factors, the volume of bank assets amounted to 1 billion.*

**KEYWORDS:** *Private Banks, Resource Base, Capital, ROA, ROE.*
